

# THE GOOD LIFE EXPERIENCE

Sip of Gold  
The Collection

## \*Come together

Starting off the day with a good coffee, treating yourself to tea and sweets in the afternoon, savouring a delicious dinner, sipping cool champagne as you unwind with friends – all these moments make our lives that little bit richer.

Our long-time friends Monika and Dominik allowed us to share some very personal moments of them enjoying life to the full, using selected pieces from our porcelain collections.

Maybe you too could experience your own GOOD LIFE moments with some of our products, which are carefully handcrafted in the Porzellanmanufaktur Fürstenberg studios. Creating those moments, when people enjoy the finer things in life together, is what motivates us every day.

“The Paraíso design is a cosmos of fanciful plants, shapes and colours. Each item is an extraordinary unique piece in its own right, and the service as a whole forms an eclectic mix of patterns that colourfully celebrates passion for collecting and arranging. When Asian peonies meet traditional Majorcan weaving patterns, ornaments inspired by Portugal and tropical plants on the table, they tell tales of distant lands.”
